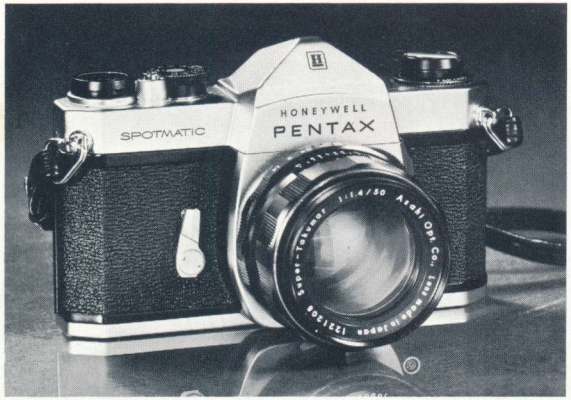
The world's best-selling 35mm fine camera system

2-70 PHOTO BOX

HONEYWELL PENTAX

The Superb Spotmatic -- with uncannily precise "full format" through-the-lens exposure control



Tops in its field, the Honeywell Pentax Spotmatic combines foolproof exposure control with outstanding optics, ease of use, and a trim, compact size that makes you wonder why all other SLR's are so bulky. Features include shutter speeds to 1/1000 sec., automatic exposure counter reset, built-in self-timer, depth-of-field preview, and much more, yet the Spotmatic is modestly priced: with Super-Takumar 50mm f/1.4 lens, **about $300.** with Super-Takumar 55mm f/1.8 lens, **about $260.** Satin black f/1.4 model, **about $310.**

The new Honeywell Pentax SL gives you the traditional fine workmanship and dependability inherent in the Pentax 35mm photo system. Designed with viewing and focusing features that make fine photography easy. Can use the full range of fine Takumar lenses. About **$210** with f/1.8 lens.

(1)

The budget-priced H1a doesn't skimp on the things that have made Honeywell Pentax so popular – the small size and lightweight, sensible placement of controls, and quality of finish. You get all these along with a fine Super-Takumar f/2 lens, shutter speeds to 1/500 sec., and a brilliant viewing and focusing system. And, like all Pentax cameras, the H1a can use the full range of great Takumar lenses and useful accessories from the Pentax System. At **about $160,** it's the easiest way to get started in fine photography.

Takumar lenses for the Pentax are available in focal lengths from 17mm ultra wide-angle to 1000mm super telephoto. All 27 lenses in the Pentax System are fully color corrected and mounted in smooth-focusing, precision barrels, and each lens is supplied with leather case and front and rear caps. In addition, a matched lenshood is furnished with every lens longer than 55mm in focal length. Your dealer will be pleased to quote prices.
